Connecting to the Internet

All Conference Venues

Science & Engineering Hall · University Student Center (Marvin Center)

Option 1 — Guest WiFi (GWguest)

For all conference attendees without a GW or eduroam account.

1. Open your device's **WiFi settings** and select **GWguest**.
2. If prompted with a certificate warning for `cppm.it.gwu.edu`, tap **Accept** or **Trust** (this is a GWU-issued certificate and is safe).
3. Open a **web browser** — you will be automatically redirected to the self-registration page. If not, navigate to `my.gwu.edu`.
4. Enter your name and email address to self-register. Access is valid for **72 hours**.

Option 2 — eduroam (Academic Institutions)

If your home institution participates in eduroam, you can connect directly.

1. Open your device's **WiFi settings** and select **eduroam**.
2. Sign in using your **home institution credentials** (e.g., `username@youruniversity.edu`).
3. No additional registration is required.
